

AREA PROBLEMS

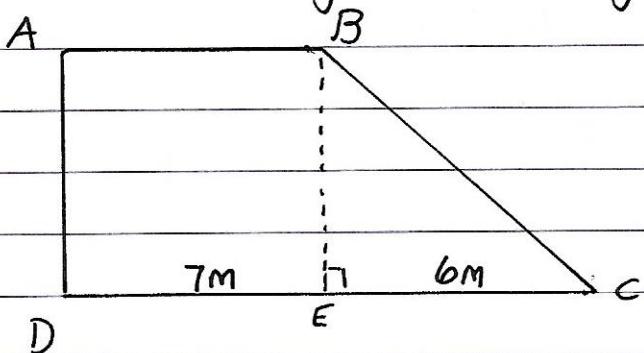

- 1) The area of the rectangle is 56cm^2 . Calculate the width.

- 2) The area of the triangle is 24cm^2 . Calculate the height.

- 3) The diagram shows a trapezium ABCD made up from a rectangle and a triangle placed together.

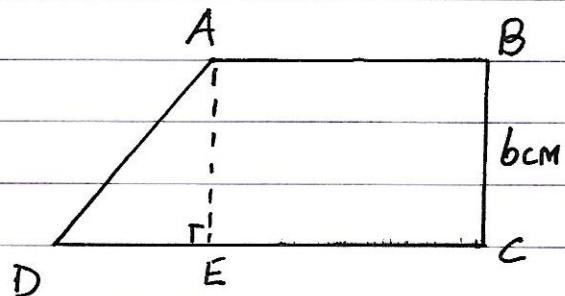

The area of the triangle is 30m^2 .

a) Find the height of the triangle, BE .

b) Calculate the area of the rectangle ABED

c) find the total area of the trapezium.

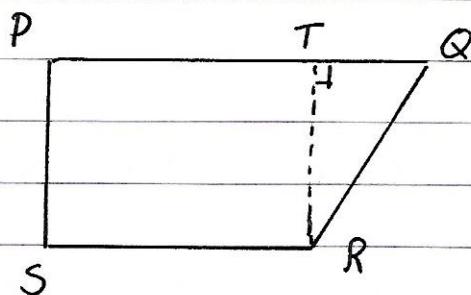

- 4) The diagram shows a trapezium ABCD made up from a rectangle and a triangle stuck together.

- The area of the rectangle is 60 cm^2 .
- The length DC is 14 cm .

- Calculate the area of triangle ADE.
- Find the total area of the trapezium.

- 5) Trapezium PQRS is made up from a rectangle and a triangle placed together.

- The area of the entire trapezium is 35 m^2
- Distance SR is 6 m
- Distance PQ is 8 m

- Calculate the area of the triangle QRT

- Calculate the area of the rectangle PTSR.

(Remember area of a trapezium $A = \frac{(a+b)h}{2}$)
